

1 Claim

2 DNA

3 Gene

4 Phenotype

5 Diffusion

6 Biotic factors

7 Cycles in nature

8 Photosynthesis

9 Punnett square

10 Habitat

11 Meiosis

12 Conclusion

13 Experiment

14 Concept

15 Dominant

16 Genetics

17 Heterozygous

18 Sexual reproduction

19 Compound

20 Levels of classification

21 Cellular respiration

22 Active transport

23 Autotrophs

24 Natural selection

25 Sustainability

26 Results

27 Inquiry

28 Recessive

29 Genetic information

30 Homozygous

31 Asexual reproduction

32 Biomes

33 Cells

34 Eukaryote

35 Passive transport

36 Heterotrophs

37 Chromosomes

38 Trait

39 Skepticism

40 Evolution

41 Genotype

42 Osmosis

43 Abiotic factors

44 Human body systems

45 Cell organelles

46 Prokaryote

47 Pollution

48 Mitosis

49 Ecosystems

50 Hypothesis
