RE: New Mexico Culture Research

Valued Parents and Caregivers,

As part of our social studies curriculum we are investigating the different cultures in New Mexico. Your child has been assigned to research the Native American/Hispanic /Western culture of New Mexico. You may use the attached information or research materials you find to learn more about this culture.

Your child needs to return the attached page with a picture and the single most interesting fact you discovered. Your child will share these with the class as we learn more about these important cultures.

His/her culture research is due on _____.

Thank you for your participation in your child's 1st grade social studies work.

Sincerely,

1st grade teachers, James Elementary
