

## Home project Explanation

### Needs vs. Wants - The Pueblo and my Family

Parents,

Please use the information provided or materials from the Internet or library to help your child think about needs vs. wants. My goal in the classroom is to have students realize that things we assume are necessary might really be wants, especially when compared to other cultures around the world and from the past. This project is due one week from today on

\_\_\_\_\_.

Thank you for your participation in our 1<sup>st</sup> grade social studies curriculum!
